# India International Waterproofers Conference & Exhibition 2026

6<sup>th</sup>–7<sup>th</sup> August | Hotel Pullman, Aerocity, New Delhi

Waterproofing failures are rarely “product failures.” They are almost always system failures - of detailing, sequencing, supervision, and testing. This conference is designed to move the industry forward: from brand-led decisions to performance-based, systems-led building protection.

Over two days, we will focus on new technologies and proven practices across Waterproofing, Thermal Insulation, Repairs, and Protective Coatings - through expert talks and curated panel discussions. Expect real-world detailing, constructability, diagnostics, QA frameworks, and lifecycle thinking—plus direct access to technology partners in the exhibition. If you design, specify, execute, supervise, or maintain buildings, this is where the next decade of building protection gets defined.”
